Dear FCC:

I am writing to complain about the proposed changes to the Universal Service Fund and requesting that the FCC investigate this matter further before changing the current policy. Your proposed \$1.00 per month charge for all wireless phones will directly impact my ability to retain my wireless service.

I do not think it is fair to charge EVERYBODY \$1.00 dollar regardless of how they use their wireless phone, especially for a low-volume user that relies on wireless service for safety and security, not interstate calls. The current policy is fair, based on interstate usage, and should be left alone. Please do not penalize us. Keep this fair.

I purchased a tracfone because I did not want to deal with the hassles and outrageous fees that accompanied other phone plans. I along with other tracfone users purchase such phones because we can not afford a high monthly fee, averaging about \$50. People who use tracfones do so primarily for local and emergency calls. Tracfone users usually don't use as much air time as the users who subscribe to phone plans, example: Verizon wireless, ATT etc.

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.

Very truly yours,
